

# Installing Licenses

This page describes the procedure for installing new or additional [Base/Node](#) license keys.

## To Install A License Key:

1. In the WebUI, click the **Settings** tab
2. In the left navigation pane, go to **System > Licensing > Install New License**.

3. Copy the license key from the email you received from NET.
4. Paste the license key into the text box.
5. Click **Apply**.

## Sample License Key

### WARNING

Do not attempt to use the sample key in your UX!

```
