

POST sbaconfig - action enablesvc

REST API Method: **POST /rest/sbaconfig?action=enablesvc**

This action starts the network daemons for the services indicated.

Ensure that the CSR is successfully generated and submitted to the CA prior to enabling the Lync service using the [generatecsr action](#) . Failure to follow the correct order of steps may result in undesirable behavior.

An HTTP Status 200 return for this action only means that the request was successfully received by the system. Status of the action must be retrieved using the [SBA Action Status Resource](#) .
