Parameters

Parameter Name	Required	Service Affecting	Data Type	Default Value	Possible Values	Description
Description	No	No	string	none	64 - Max Length	Describes the Log Profile Table so that it is easily identifiable when selecting a Log Profile in log subsystem. This table contains two types of log profiles. User-defined and Pre-defined Log Profiles. User-defined log profiles are added by user which can be modified or deleted. The acceptable ID range for user-defined profiles is 1 to 20. Pre-defined log profiles are provided by Sonus which cannot be modified or deleted. These log profiles are defined after ID 1000.
