# GET enmsignalingprofile

---

## REST API Method: **GET /rest/enmsignalingprofile**

Retrieves all resource schema elements and values of a CAS E and M Signaling Profile based on a requested ID.

If no ID is specified in the GET, a listing of all CAS E and M Signaling Profiles will be returned along with their associated IDs. These identifiers can be used to collect resource schema element values via the [GET enmsignalingprofile id](#) method.

### URL:

<https://192.168.0.111/rest/enmsignalingprofile>

### HTTP Method

GET

### Requires Authentication:

true

### Parameters

| Name   | Required | Values | Description   |
|--------|----------|--------|---|
| filter | No       | config | The type of filtered information in the response. If no filters are specified, all get applied. |
