
POST sbaconfig - action installccecet

REST API Method: **POST /rest/sbaconfig?action=installccecet**

This action installs the pre-signed certificate for the CCE. This action is used if a CSR was previously exported using the [generatecccsr action](#) and not auto-submitted to the CA.

An HTTP Status 200 return for this action only means that the request was successfully received by the system. Status of the action must be retrieved using the [CCE Action Status Resource](#) .
