
PCE

Resource - PCEConfiguration

Defines an PCEConfiguration managed object.

- GET PCEConfiguration
- PUT PCEConfiguration
- PUT PCEConfiguration - action ActivateTraffic
- PUT PCEConfiguration - action DeactivateTraffic
- PUT PCEConfiguration - action ResetPeers
- PUT PCEConfiguration - action RestoreDebugDefaults

Resource - PCEStatistics

Defines an PCEStatistics managed object.

- GET PCEStatistics
- PUT PCEStatistics - action RefreshAllStats
- PUT PCEStatistics - action ResetAllStats

Resource - PCEISUPStatistics

Defines an PCEISUPStatistics managed object.

- GET PCEISUPStatistics
- PUT PCEISUPStatistics - action RefreshAllStats
- PUT PCEISUPStatistics - action ResetAllStats

Resource - PeerISUPStatistics

Defines an PeerISUPStatistics managed object.

- GET PeerISUPStatistics
- POST PeerISUPStatistics
- DELETE PeerISUPStatistics
- PUT PeerISUPStatistics - action RefreshAllStats
- PUT PeerISUPStatistics - action ResetAllStats

Resource - PCETCAPStatistics

Defines an PCETCAPStatistics managed object.

- GET PCETCAPStatistics
- PUT PCETCAPStatistics - action RefreshAllStats
- PUT PCETCAPStatistics - action ResetAllStats

Resource - PeerTCAPStatistics

Defines an PeerTCAPStatistics managed object.

- GET PeerTCAPStatistics

- POST PeerTCAPStatistics
- DELETE PeerTCAPStatistics
- PUT PeerTCAPStatistics - action RefreshAllStats
- PUT PeerTCAPStatistics - action ResetAllStats

Resource - PCENAManager

Defines an PCENAManager managed object.

- GET PCENAManager
- PUT PCENAManager

Resource - PCENA

Defines an PCENA managed object.

- GET PCENA
- POST PCENA
- PUT PCENA
- DELETE PCENA

Resource - PCEDBManager

Defines an PCEDBManager managed object.

- GET PCEDBManager
- PUT PCEDBManager - action LiveToWorkspace
- PUT PCEDBManager - action WorkspaceToLive

Resource - PCEDBSummary

Defines an PCEDBSummary managed object.

- GET PCEDBSummary
- POST PCEDBSummary
- DELETE PCEDBSummary

Resource - PCEDatabase

Defines an PCEDatabase managed object.

- GET PCEDatabase
- POST PCEDatabase
- DELETE PCEDatabase

Resource - PublicNode

Defines an PublicNode managed object.

- GET PublicNode
- POST PublicNode

- PUT PublicNode
- DELETE PublicNode

Resource - PrivateNode

Defines an PrivateNode managed object.

- GET PrivateNode
- POST PrivateNode
- PUT PrivateNode
- DELETE PrivateNode

Resource - PublicGateway

Defines an PublicGateway managed object.

- GET PublicGateway
- POST PublicGateway
- PUT PublicGateway
- DELETE PublicGateway

Resource - GTTTunnelGateways

Defines an GTTTunnelGateways managed object.

- GET GTTTunnelGateways

Resource - GTTTunnelGateway

Defines an GTTTunnelGateway managed object.

- GET GTTTunnelGateway
- POST GTTTunnelGateway
- PUT GTTTunnelGateway
- DELETE GTTTunnelGateway

Resource - TrunkMapping

Defines an TrunkMapping managed object.

- GET TrunkMapping
- POST TrunkMapping
- PUT TrunkMapping
- DELETE TrunkMapping

Resource - ISUPLearningExceptions

Defines an ISUPLearningExceptions managed object.

- GET ISUPLearningExceptions

Resource - ISUPLearningException

Defines an ISUPLearningException managed object.

- GET ISUPLearningException
- POST ISUPLearningException
- DELETE ISUPLearningException

Resource - IS41BillingIDMappings

Defines an IS41BillingIDMappings managed object.

- GET IS41BillingIDMappings

Resource - IS41BillingIDMapping

Defines an IS41BillingIDMapping managed object.

- GET IS41BillingIDMapping
- POST IS41BillingIDMapping
- PUT IS41BillingIDMapping
- DELETE IS41BillingIDMapping

Resource - PCEBatchOperations

Defines an PCEBatchOperations managed object.

- GET PCEBatchOperations
- PUT PCEBatchOperations
- PUT PCEBatchOperations - action AddRecords
- PUT PCEBatchOperations - action DeleteRecords
- PUT PCEBatchOperations - action ReplaceDatabase
- PUT PCEBatchOperations - action ExportDatabase
- PUT PCEBatchOperations - action PurgeDatabase
- PUT PCEBatchOperations - action FileTransfer

Resource - PCESearchOperations

Defines an PCESearchOperations managed object.

- GET PCESearchOperations
- PUT PCESearchOperations

Resource - MSAC

Defines an MSAC managed object.

- GET MSAC
- POST MSAC
- PUT MSAC
- DELETE MSAC

Resource - MSA

Defines an MSA managed object.

- GET MSA
- POST MSA
- PUT MSA
- DELETE MSA

Resource - ProcessEvents

Defines an ProcessEvents managed object.

- GET ProcessEvents
- POST ProcessEvents
- PUT ProcessEvents
- DELETE ProcessEvents

Resource - ProcessEvent

Defines an ProcessEvent managed object.

- GET ProcessEvent
- POST ProcessEvent
- PUT ProcessEvent
- DELETE ProcessEvent
