# Troubleshooting Output Examples

---

The following samples show troubleshooting output.

```
Q931, ISDN, TEL, and SIP level info 2 debug turned on.

node-225-113# trace q931 1 info

Trace level set to info 2.

node-225-113# trace isdn 1 info

Trace level set to info 2.

node-225-113# trace tel 1 info

Trace level set to info 2.

node-225-113# trace sip 1 info

Trace level set to info 2.
```

## Call set up:

```
[ 484][20071120.140732.718:q931.i2] Q931Machine::ProcessRequestOrMessage: 0x1498E570 Processing message
'SETUP' in state user Null
