true

Parameters

Parameter Name	Required	Service Affecting	Data Type	Default Value	Possible Values	Description
Description	No	No	string	none	64 - Max Length	A description of the profile.
Hold	Yes	No	Enum	0	Possible values: <ul style="list-style-type: none">0 - btFalse1 - btTrue	Used to enable/disable the Hold/Off Hold feature. If it is enabled, the user can hit flash hook to put the active call on hold (a dial tone will be played).
Transfer	Yes	No	Enum	0	Possible values: <ul style="list-style-type: none">0 - btFalse1 - btTrue	Used to enable/disable the Transfer feature. If it is enabled, the user can hit flash hook to get a dial tone (the active call will be put on hold) and to start dialing the phone number that the active call will be transferred to. Hold is a precondition for Transfer, if Hold is set to false then Transfer will automatically be set to false.
CallWaiting	Yes	No	Enum	0	Possible values: <ul style="list-style-type: none">0 - btFalse1 - btTrue	Used to enable/disable the Call Waiting feature. If it is enabled, the user currently on an call will hear the Call Waiting beep indicating an incoming call (The user will use flash hook to toggle between the two calls).

Helpful Tip

The POST can contain either only the attributes that are being updated, or the full set of attributes for the resource
